

## 第 74 卷 索 引

<b>A</b>		borderline personality disorder	1077
acute bronchiolitis	259	bronchoalveolar lavage ( BAL )	675
acute gastroenteritis	567	<b>C</b>	
acute otitis media	458 ,703	C7 deficiency	720
acute respiratory distress syndrome	541	<i>Campylobacter fetus</i> subspecies <i>fetus</i>	269
acute respiratory failure	162	<i>Capnocytophaga</i>	594
adhesion molecule	630	cat	824
adult	150	cat scratch disease	387 ,563
<i>Aeromonas hydrophila</i>	155	cavitary isolation of tubercle bacilli	245
<i>aggR</i>	134	cerebrospinal fluid	811
AIDS	984	chemokine receptor	237
allogeneic bone marrow transplantation	365	chickenpox	670
amantadine	6 ,476 ,699	children	6 ,12 ,339 ,458 ,699
amantadine resistance	646	<i>Chlamydia pneumoniae</i>	954 ,1018
amebiasis	57	<i>Chlamydia psittaci</i>	954
amebic colitis	552	<i>Chlamydia trachomatis</i>	37
amebic liver abscess	585	chronic pulmonary tuberculosis	245
American Thoracic Society guideline	43	chronic respiratory tract infection	846
amphotericin B	365	cicatrical stricture	552
antiadherent material	431	clinical laboratory automation	501
antibiotic resistance	1	CMV-antigenemia	215
antibody	670	coccidioidomycosis	580
antibody response	30	codon 215	360
antigenic analysis	481	combination therapy	128
anti-HIV agent	237	community-acquired pneumonia	43
antimicrobial activity	441	conjugative R plasmid	816
antimicrobial material	431	consensus primer	470
antiviral naive	128	continuous ambulatory peritoneal dialysis	73
aseptic meningitis	231	Crimean-Congo hemorrhagic fever	87
aspergillosis	536	cryptosporidiosis	518
<i>astA</i>	134	<i>Cryptosporidium parvum</i>	518
ATP	120	culture negative endocarditis	51
auto-antibody	811	cytokine	573 ,630
<b>B</b>		cytomegalovirus ( CMV )	215 ,675 ,828
bacteremia	51	<b>D</b>	
bacterial meningitis	339 ,811	dental calculus	961
<i>Bartonella henselae</i>	387 ,563	diabetes mellitus	486
BCG	245	diabetic neuropathy	486
biotybe	96	diar rheagenic <i>Escherichia coli</i>	372

disinfectant	664 ,1023
disseminated intravascular coagulation	541
domestic case	834
drug	966
drug resistance	128 ,237 ,331 ,345 ,450 ,511 ,834 ,1004
drug susceptibility	96 ,816
DTwP vaccine	150

**E**

<i>eaeA</i>	134
Ebola hemorrhagic fever	87
echovirus 30	231
elderly	17 ,30 ,43 ,353 ,476
electrolyzed functioning water	120
emphysematous cystitis	486
<i>Entamoeba histolytica</i>	585
enteropathogenic <i>Escherichia coli</i>	134
enzyme immunoassay	563 ,841 ,1032 ,1038
enzyme-linked fluorescent assay	709
epidemiology	64 ,104 ,458 ,653
Epstein-Barr virus	828
<i>Escherichia coli</i>	24 ,250 ,339
<i>Escherichia coli</i> O157	527
Etest <sup>®</sup>	221
experimental model	441
extended-spectrum $\beta$ -lactamase ( ESBL )	24 ,112 ,250

**F**

falciparum malaria	491
familial infection	104
febrile episode	353
fecal flora	365
fluconazole	365
fluoroquinolone	345
fosfomicin	1004
fungal infection	365

**G**

gastrointestinal infection	57
gene analysis	481
genotype	450 ,470
genotypic assay	128

**H**

<i>Haemophilus aphrophilus</i>	1081
<i>Haemophilus influenzae</i>	339
HCV	961
heart transplantation	378
<i>Helicobacter pylori</i>	120 ,601
hematological disease	215
hemodialysis	73
hemolysin gene	155
hemolytic activity	155
hemolytic anemia	724
hemolytic streptococci	511
hemophagocytic syndrome	630
hepatitis	828
hepatitis A	716
hetero-resistant	966
heterogeneously resistant	653
highly active antiretroviral therapy	638
HIV	82
HIV infection	57 ,1077
HIV p24 antigen	709
HIV 1	128 ,237 ,360 ,450 ,638
hospital infection	465
human herpes virus 6	264
hypoxemia	259

**I**

IgG antibody	387
IgM antibody	387
IL 10	598
immunization	30
immunocompetent host	594
immunomagnetic separation	527
immunosuppressant	378
imported case	834
imported mycosis	580
indirect fluorescence antibody	387
infant	458 ,675
infection control system	501
infectious disease control	687
infectious enteritis	816
infectious mononucleosis-like syndrome	264
infective endocarditis	51

influenza	476 ,646 ,699 ,1032
influenza A virus	6 ,841
influenza B virus	481
influenza vaccine	17 ,30
influenza virus	12 ,949 ,973 ,1038
influenza virus infection	1044 ,1062
intelligent database	501
interleukin 8	811
intracellular enzyme activity	73

**J**

Japanese spotted fever	162 ,278
------------------------	----------

**K**

<i>Klebsiella pneumoniae</i>	24
------------------------------	----

**L**

Lassa fever	87
law	687
lecithin	431 ,441
Legionnaires' disease	989
line sepsis	96
liver biopsy	984
liver transplantation	378
lower respiratory tract infection	274
lung abscess	594
lung cancer	536
lymphoid tumor	215

**M**

macrolide	846
macrophage	598
malaria	694
malnutrition	331
Marburg disease	87
maximum biosafety level ward	87
measles	670
medical student	465
men who have sex with men ( MSM )	716
meningococcemia	720
metabolic acidosis	491
MIC	221 ,601
microdilution method	221
microorganism	846

miliary tuberculosis	541
minocycline	598
mixed infection	949
morphology	1018
MRSA	573 ,653 ,658 ,966
Mu3 agar	653
multiple organ failure	989
mumps	670
<i>Mycobacterium</i>	64
<i>Mycobacterium avium-intracellulare</i> complex ( MAC )	64
<i>Mycoplasma pneumoniae</i>	259 ,954

**N**

nalidixic acid	345
nasal aspirate	1032
necrosis	536
neonatal exanthematous disease	573
neonate	392
neuraminidase	12
neuraminidase inhibitor	1044 ,1062
neutrophil dysfunction	73
<i>Nocardia farcinica</i>	274
nontuberculous mycobacteriosis	274
Norwalk-like virus	470 ,567
nosocomial infection	353
nursing home	476 ,646
nursing home-acquired pneumonia	331

**O**

<i>Orientia tsutsugamushi</i>	598
oseltamivir phosphate	1044 ,1062
O-sero-group	155 ,372
outbreak	278
outbreak of dysentery	1004
oxidative burst	73

**P**

pacemaker	980
PCR	24 ,250 ,372 ,392 ,675 ,984
PCR-restriction fragment length polymorphism	646
pediatrics	694
pelvic inflammatory disease	269
penicillin-resistant <i>Streptococcus pneumoniae</i> ( PRSP )	458 ,658 ,703

penicillin intermediate resistant <i>Streptococcus pneumoniae</i>	658	silver citrate	431 ,441
pest	87	solid-organ transplantation	378
phenotype	450	species and serovar	834
plasmid	24	sporadic diarrhea	155
plasmid profile	816 ,104	<i>Staphylococcus aureus</i>	966
pneumonia	547	<i>Staphylococcus epidermidis</i>	96
polymicrobial infection	331	<i>Staphylococcus schleiferi</i>	980
prevalence	511	steroid therapy	162
primary infection	360	streptococcal pyrogenic exotoxin	511
primary tuberculosis	245	<i>Streptococcus agalactiae</i>	339
<i>Proteus mirabilis</i>	250	<i>Streptococcus pneumoniae</i>	1 ,339 ,547
proton pump inhibitor	601	stridor	675
pulsed-field gel electrophoresis ( PFGE )	1 ,96 ,104 ,143	superantigen	573
pyogenic vertebral osteomyelitis	1081	surrogate marker	638
		surveillance	973
		susceptibility	966
		systemic aspergillosis	378
		systemic infection	1
<b>R</b>		<b>T</b>	
radiograph	954	TNF- $\alpha$	598
rapid diagnosis	12 ,841 ,1032 ,1038	Toho 1	250
re-emerging infectious disease	580	toxic shock syndrome toxin 1 ( TSST 1 )	573
respiratory tract infection	949	<i>Toxocara cati</i>	824
rhabdomyolysis	989	tuberculosis	465 ,984
RS virus	949	tuberculous peritonitis	589
RT-PCR	82 ,567	tympanostomy tube	703
rubella	670 ,724 ,1012		
		<b>U</b>	
<b>S</b>		ultrasonography-guided needle biopsy	589
saliva	961	urethral catheter	431 ,441
<i>Salmonella</i>	345 ,816	urinary antibody	1012
<i>Salmonella paratyphi A</i>	143	urinary antigen	547
<i>Salmonella typhi</i>	143	uterine cervix	37
salpingitis	269		
scaling	961	<b>V</b>	
screening test	82	vaccination	465 ,1012
serotyping	511	vaccine efficacy	17
serovar	37 ,64	vancomycin	966
serum antibody	150	vancomycin-resistant <i>Staphylococcus aureus</i>	653
sexually transmitted disease	57	varicella-zoster virus	392
Shiga toxin-producing <i>Escherichia coli</i> ( STEC )	104	verotoxin	849
<i>Shigella</i>	834	verotoxin-producing <i>Escherichia coli</i> ( VTEC )	849
<i>Shigella sonnei</i>	1004	viral infection	465
shock	720		
SHV 12 <i>Escherichia coli</i>	112		
side effect	30		

virucidal activity	664 ,1023			
virus isolation	231 ,638		<b>Y</b>	
virus phenotype	638	yeast		221
			<b>Z</b>	
waterborne outbreak	518	zidovudine resistance		360
window period	709			

---
