

第 78 卷 索 引

1		bronchiolitis obliterans organizing pneumonia	327
(1 3) β -D-glucan	435 519 566	C	
A		<i>Campylobacter fetus</i>	70
abdominal pain	64	Candida standard β -glucan (CSBG)	519
<i>Absidia corymbifera</i>	984	capsular polysaccharide antibody	451
acute respiratory distress syndrome (ARDS)	929	cat scratch disease	574
adenosine deaminase (ADA)	916	ceftriaxone	604
adenovirus	699	ceramic	22
albendazole	442	chickenpox	398
alveolar hydatidosis	320	child	18 253 262 451 482 490 , 496 879 943 1031
amantadine	846	China	699
amoeba	923	<i>Chlamydia pneumoniae</i>	108
ampicillin-resistant <i>Haemophilus influenzae</i>	835	clindamycin	490
aneurysm	1016	clinical isolate	83
anorexia nervosa	70	clinical manifestation	470
antagonism	290	clinical symptoms	681
antibiotic cycling	241	<i>Clostridium difficile</i>	312 1026
antibiotic susceptibility	253 835 943	<i>Clostridium perfringens</i>	32
antibody	967	CMY-2 gene	989
antimicrobial activity	46	coagulase-negative <i>Staphylococcus</i> spp.	46
antimicrobial agent	482	coccidioidomycosis	514
arbekacin	305	community-acquired infection	853
<i>Ascaris suum</i>	1036	community-acquired pneumonia	108
<i>Aspergillus</i> galactomannan	566	comparative study	54
automated blood culture system	959	copper ions	138
azithromycin	490	coronavirus	991
B		<i>Corynebacterium propinquum</i>	277
bacteremia	1026	cost-effectiveness	967
bacterial meningitis	253 604 879	cryptococcosis	327 910
bacterial translocation	283	<i>Cryptosporidium parvum</i>	138
bactericidal activity	22	culture media	54
<i>Bartonella henselae</i>	270 574	cutaneous infection	389
β -lactam	290 717 873	D	
β -lactamase-negative ampicillin-resistant <i>Haemophilus influenzae</i> (BLNAR)	604 891 943	day nursery	482
β -lactamase-nonproducing	835	delayed entry	959
blood culture	46	dental treatment	554
<i>Bordetella pertussis</i>	420	diarrhea	32 312 1000
		disinfection	90 138

disseminated intravascular coagulation (DIC)	929	<i>Haemophilus influenzae</i>	40 253 873 879 943
dissemination varicella zoster virus	64	<i>Haemophilus influenzae</i> serotype b	451 835
distribution	710	hepatitis B virus (HBV)	554
DNA gyrase	428	hepatitis C virus (HCV)	554
drug resistance	305 428 873 1006	herpes simplex virus type 1	59
drug susceptibility	420 482	hospital infection	295 305 967 995
E		hot spring	22 90 545 710
<i>eaeA</i>	975	human metapneumovirus	129
elderly	995	humidity	411
empiric therapy	241	I	
enterohemolysin	975	immunoassay	865
enterotoxin	32	immunoblotting	320
environment-derived strain	83	immunochromatography	597 935
enzyme immunoassay	597	immunocompromised patient	64
eosinophilia	514	immunodeficiency	389
eosinophilic pneumonia	1036	imported infectious disease	442
epidemiology	120 411 470 853 879	imported mycosis	514
erythromycin	829	indirect pathogen	823 829
<i>Escherichia coli</i>	1000	induction	717
E test	420	infant	404 496
extended-spectrum β -lactamase (ESBL)	1	influenza	99 120 262 597 681 935 995
F		influenza A virus	411
false negative	959	influenza B virus	411
febrile neutropenia	241	influenza C virus	470
ferret	274	influenza vaccine	99
floating microorganism	588	influenza virus	476 846 865
flow-through	865	invasive streptococcal pyogenic infection	446
fluoroquinolone	428	isolation	574
<i>fts I</i>	891	J	
fungal infection	435 519	Japanese encephalitis	1020
G		K	
gastroenteritis	699	Kaposi s varicelliform eruption	59
gastrointestinal infection	283	kidney transplant	984
genotype	1	L	
gnathostomiasis	442	<i>Legionella</i>	545 710 898
Gram stain	277	<i>Legionella pneumophila</i>	22 923
group A streptococci	1006	legionellosis	90 404
<i>gyrA</i>	508	leptospirosis	288
H		linezolid	446
H1N2 subtype	476	<i>Listeria monocytogenes</i>	1016

lobar pneumonia	910	pathogenesis	873
lymphocytopenia	929	PCR	1031
M			
macrolide resistance	508	penicillin-binding protein (PBP)	508
macrolide-resistant <i>Streptococcus pneumoniae</i>	490	peritonitis	916
macrophage	503	pH	545
malnutrition	929	phage type	690
measles	398	phospholipaseA ₂	503
<i>mecA</i> gene	54	photocatalyst coated lamp	588
meningitis	40 835	phylogenetic analysis	129 815
MIC	83 891	pneumonia	120 490 496
mice systemic infection	290	post-exposure prophylaxis	262
middle ear effusion	1031	prognosis	253
miliary tuberculosis	929	prophylaxis	274
minimum bactericidal concentration (MBC)	40	<i>Proteus mirabilis</i>	1
minimum inhibitory concentration (MIC)	40	pseudomembranous enterocolitis	905
mixed infection	108	<i>Pseudomonas aeruginosa</i>	823 829
molecular epidemiology	835	public health laboratory	248
MRSA	54 305 580 717 , 823 829 853 905 984	pulsed-field gel electrophoresis (PFGE)	420 545 , 580 690 898 1006
multidrug-resistance	989	pyrogenic exotoxin genes	1006
multiplex PCR	699	Q	
mumps	398	questionnaire	99
<i>Mycobacterium haemophilum</i>	389	R	
<i>Mycobacterium tuberculosis</i>	503 916	rabies	274 815
<i>Mycoplasma pneumoniae</i>	496 1031	radiological diagnosis	327
N			
nasopharyngeal carriage	18	rapid diagnosis	120 597 681 846 865 935
National Notifiable Diseases Surveillance	248	re-emerging infectious disease	1020
neuraminidase inhibitor	995	receiver operating characteristic curve	566
non-specific reaction	435	resistance	717
nosocomial infection	32 312 853	resistant bacteria	241
nucleoprotein gene	815	respiratory tract infection	129 277 873
nursing home	32 404	reverse transcription-polymerase chain reaction (RT-PCR)	129
O			
oseltamivir	262 846	rhabdomyolysis	59
otitis media	1031	risk factor	482
outbreak	90 404	rotavirus	699
P			
<i>parC</i>	508	rubella	398 967
S			
		<i>Salmonella</i> Enteritidis	690
		<i>Salmonella</i> Newport	989
		sanitary maintenance	90

SARS	991	<i>Toxocara canis</i>	114
sealed rupture	1016	travel	476
sepsis	70 283 295	Tsutsugamushi disease	248
serodiagnosis	320 435		
serotype	83 1000	U	
<i>Serratia marcescens</i>	295	urinary antigen	18 404
shiga-toxin	1000		
silver ions	22	V	
smell molecule	588	vaccine	398 967
specific pathogen-free (SPF)	952	<i>vanA</i>	952
stability	991	vancomycin	290 717 952 1026
standard precaution	554	vancomycin-resistant enterococci (VRE)	952
streptococcal pyrogenic exotoxin	10	verotoxin-producing <i>Escherichia coli</i>	975
streptococcal toxic shock syndrome	10	<i>Vibrio vulnificus</i>	83
<i>Streptococcus pneumoniae</i>	18 40 108 428 508 879	virulence	923
<i>Streptococcus pyogenes</i>	10	visceral larva migrans	1036
		W	
T		water-recirculating system	545
T serotype	1006	whirlpool	898
T-type	10		
teicoplanin	46 580	Z	
thoracoabdominal aorta	1016	zoonosis	114 1020
topoisomerase IV	428
