

第 87 卷 索引

A		cytomegalo virus	39
acid-fast staining	424	cytomegalovirus	49, 441
acute HIV infection	415, 431	D	
acute respiratory distress syndrome	39	drug concentration	590
additional vaccination	409	drug resistance	6, 581, 732, 739
adult	603	drug susceptibility	1
AIDS	435	duodenitis	441
<i>Ancylostoma duodenale</i>	756	E	
antigen and antibody combination assay	415	efficacy	195
atovaquone	435	encephalopathy	451
B		enzyme-linked immunosorbent assay (ELISA)	409, 415
bacteremia	1, 596	epilepsy	389
<i>bla</i> _{IMP}	189	esophageal perforation	746
blood culture	620	exfoliative toxin B	380
<i>Bordetella holmesii</i>	721	extended-spectrum β -lactamase (ESBL)	732
<i>Bordetella parapertussis</i>	721	extracorporeal membrane oxygenation (ECMO)	375
<i>Bordetella pertussis</i>	721	F	
breast cancer	385	fever of unknown origin	44
C		fourth-generation assay	415
cat bite	211	G	
central venous access port	380	gastroduodenitis	49
cerebrospinal fluid	590	genotype	27
chemoprophylaxis	446	gentamicin	357
child	207, 581, 620	glomerulonephritis	752
chronic kidney disease	14	gram strain	33
clinical characteristics	596	H	
clinical course	726	<i>Haemophilus influenzae</i>	581, 590
<i>Clostridium tetani</i>	33, 385	high dose therapy	357
co-infection	618	HIV	14, 415, 431, 435, 441, 613
COBAS TaqMan MAI	215	I	
community-acquired bacteremia	6	immune adherence hemagglutination (IAHA)	409
comorbidity	14	immunochromatography	27, 431
conventional PCR	721	immunocompetent adult	49
CR-BSI	380		
cryptococcus	39		
Cushing syndrome	39		
cysticercosis	608		
<i>Cysticercus cellulosae</i>	608		

immunogenicity	409	<i>Peptostreptococcus micros</i>	761
incubation period	446	pericarditis	752
influenza	195	<i>Plasmodium malariae</i>	446
influenza virus	618	<i>Plasmodium ovale</i>	22
influenza (H1N1) 2009	368, 451	<i>Plasmodium vivax</i>	22
		pneumocystis pneumonia (PCP)	435
		pneumonia	375, 451
		primaquine	22
		pulmonary <i>Mycobacterium abscessus</i> infection	726
		Q	
		quinolone	389
		R	
		rapid diagnosis	27, 431
		RT-PCR	27
		rubella	603
		S	
		safety	195
		sapovirus	393
		septic pulmonary embolism	761
		serotype	53
		<i>Serratia marcescens</i>	189
		sick sinus syndrome	613
		staphylococcal scalded skin syndrome	380
		<i>Stenotrophomonas maltophilia</i>	596
		<i>Streptococcus pneumoniae</i>	1
		subspecialty infectious disease practice	6
		surgical resection	726
		surveillance	732
		T	
		<i>Taenia solium</i>	608
		tazobactam/piperacillin	590
		therapeutic drug monitoring	357
		treatment	590, 726
		V	
		vaccination	195
		vaccine	603
		varicella vaccine	409
		<i>Vibrio parahaemolyticus</i>	53
		(vivax)	446
immunogenicity	409		
incubation period	446		
influenza	195		
influenza virus	618		
influenza (H1N1) 2009	368, 451		
		K	
<i>Kingella kingae</i>	207		
		L	
<i>Legionella pneumonia</i>	389		
<i>Legionella pneumophilla</i>	375		
lopinavir-ritonavir	613		
Lyme disease	44		
		M	
malignant lymphoma	746		
mediastinitis	746		
meningitis	590		
metallo- β -lactamase	189		
multi-drug resistant <i>Pseudomonas aeruginosa</i> (MDRP)	732		
multiplex	721		
<i>Mycobacterium chelonae</i>	424		
<i>Mycobacterium intracellulare</i>	215		
<i>Mycobacterium lentiflavum</i>	215		
		N	
necrotizing fasciitis	211		
neurological complication	618		
nontuberculous mycobacterium	424		
norovirus	27		
nursing and health-care associated pneumonia	739		
nursing home	393		
		O	
osteomyelitis	207		
outbreak	393, 424		
		P	
paragonimiasis	756		
parvovirus	752		
<i>Pasteurella multocida</i>	211		
penicillin resistant	1
